

# ICE Summit:

Not Your Typical MedEd Conference!

# ICE

Do you love a good MedEd debate? Do you dream about having your mind stimulated and your convictions pushed to the limit? Would you like to interact with Clinician Educator thinkers and doers from around the world? Then the ICE Summit is the event for YOU!

Led by dynamic and renowned Clinician Educators, ICE Summits will push you to think deeply about the most controversial and provocative elements of MedEd – our speakers aren't presenters, they are provocateurs! [pruh-vok-uh-tur, noun; a person who deliberately behaves controversially in order to provoke argument or other strong reactions.]

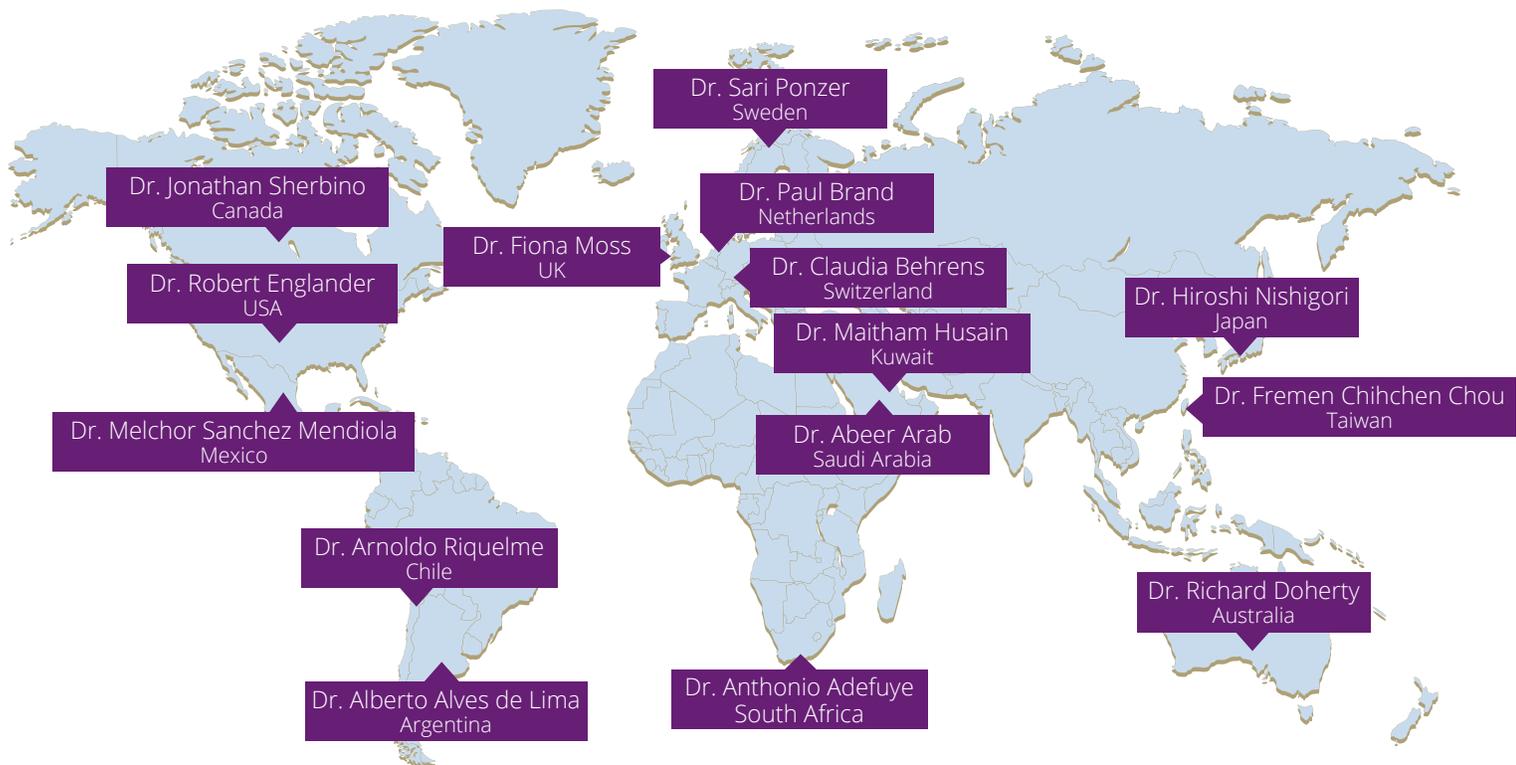

Our Summits are about discussing and sharing ideas with some of the brightest minds in MedEd. You will leave with new ideas and concepts, a renewed zest for education practice, a collection of strong take-home messages and new network of international colleagues.

## Examples of past sessions:

- Set Up To Fail: Do we really believe a learner in difficulty can be successfully remediated?
- When the patient becomes the "enemy": The reality of harassment in the learning environment
- Curriculum Run Amok: Are we losing our bearings?
- Medical education first must die before it can transform
- Clinical Reasoning: We can't teach this, we should stop talking about it

First class presenters come from all over the world

## Highlights include:

# ICE SUMMITS: CONTROVERSIES IN MED ED

## Save the date!

Upcoming in 2019:  
**#ICEMedEd**
